

HIGHLIGHT

LYO-X

Who are you?

LYO-X is a consulting and modeling & simulation company specialized in PK/PD and Quantitative Systems Pharmacology for the preclinical, translational and clinical development of biologics and novel drug formats.

What is your expertise?

LYO-X leverages extensive expertise in PK/PD and Quantitative Systems Pharmacology (QSP) modeling, combined with an in-depth understanding of the pharmacological properties of innovative drug formats, to optimize their preclinical and clinical development.

What are your key products or services?

LYO-X provides strategic consultancy and PK/PD and Quantitative Systems Pharmacology (QSP) modeling for the successful transition of biotherapeutics through all preclinical and clinical development stages. We specialize in biotherapeutics, ADC, oligonucleotides, cell and gene therapies.

Can you sum up your company in 3 words?

- Competent
- Quality
- On time
