

# HIGHLIGHT

**OZBIOSCIENCES**  
The art of delivery systems

# Who are you?

**OZ Biosciences** is a product development company that creates, develops and commercializes **delivery systems** of bioactive materials (DNA, siRNA, proteins, antibodies...), intended for the worldwide scientific community and pharmaceutical industries.

# What is your expertise?

We have developed a Microfluidics Platform for the reproducible development of **safe & potent drug delivery vehicles** for pharmaceutical applications.

We can support every stage of your **mRNA-LNP production**, from mRNA synthesis to LNP formulation development, manufacturing and fill & finish.

# What are your key services?

**OZ Biosciences** has obtained the Crédit d'Impôt Recherche (**CIR**) Agreement.

This official accreditation enables French companies looking to collaborate with us on a biology R&D project to benefit from this accreditation and receive tax advantages.

Contact us for your **custom mRNA** or **LNP** projects !
