

HIGHLIGHT

POLIFLUX

PROCESS TUBING EQUIPMENT

Who are you?

Poliflux supports industrial players in the use of pure fluids (clean steam, Purified Water for Injectable Solutions, process gases) in pharmaceutical, cosmetics and food environments.

What is your expertise?

We put our expertise in fluid transfer at the service of laboratories, engineering, integrators, installers and OEMs (machine builders). We bring our experience to all phases of your project, from the production of your fluids to the filling phase.

What are your key products or services?

We offer functional assemblies, products to specific standards and a complete range of innovative components to meet the constraints of your processes.
