

HIGHLIGHT

ADAMASTOR
BIOSERVICES

Who are you?

We're **Adamastor Bioservices**, an innovative startup empowering drug discovery through advanced molecular binding assays, helping researchers generate physiologically relevant data and make better decisions faster.

What is your expertise?

We specialize in real-time characterization of molecular binding kinetics, from purified systems to live-cell assays, supporting drug development in neurodegenerative, inflammatory, and infectious diseases.

What are your key products or services?

From purified systems to live cells scenario, we provide a comprehensive approach for real-time characterization of molecular binding kinetics.

- **SPR:** Label-free kinetic analysis
- **RT-CBA:** Real-time cell binding assays
- **Expert Consulting:** From assay design to data interpretation.

Can you sum up your company in 3 words?

- Innovative
- Science-driven
- Insightful
