SPONSORSHIP & EXHIBITION

ABOUT MABDESIGN

MabDesign, the French association of the Biotherapy Industry

MabDesign, the French biotherapy industrial association, aims to support, federate and increase the visibility of the biopharmaceutical industry, foster exchanges, promote the development and competitiveness of companies, and stimulate innovation by encouraging the emergence of start-ups from academic research.

Created in 2014, Mabdesign's Board of Directors is composed of representatives from bioMérieux, DBV Technologies, Institut Pasteur, LFB Biomanufacturing, Oxford Biomedica, Pierre Fabre, Sanofi, ThermoFisher Scientific, TreeFrog Therapeutics and 4 independant field experts : Hervé Broly (ex-Merck); Nicola Beltramineli from Innate Pharma; Maité Durrenbach from Sanofi and Stéphane Legastelois from 33 California.

Moreover, to achieve its goals MabDesign sets up a coherent set of actions promoting exchanges, collaborations and skills development. In this dynamic MabDesign has co-developed a **national directory** that brings together industrial and academic players in biotherapy and allows to identify online the know-how available in France. MabDesign organizes high-level **international scientific events**, in collaboration with key ecosystem players, to highlight innovation and stimulate exchanges between companies in the sector. With the help of its scientific committee (COSSF), MabDesign writes **summary reports** (ImmunoWatch & BioprocessWatch) for the biotherapy industry. MabDesign offers specialized and innovative **continuous professional training solutions** to enable companies to adapt their skills to the market evolution and maintain their competitiveness. Finally, MabDesign offers its members a **wide range of services** to help companies of all sizes to optimize their positioning, protect and enhance their innovations, conquer new markets and raise public funds.

Operational since September 2015, MabDesign currently has over **380 members companies** and its diversity is its strength. MabDesign's dynamic network includes pharmaceutical and biotech companies, service providers (eg. CROs, CDMOs, etc), professional training actors, high-tech equipment suppliers and specialized consultants.

3rd edition - SANOFI Campus Gentilly, France

www.icgtcongress.com

The **Innovations for Cell & Gene Therapies (ICGT) Congress** brings together leading scientists, clinicians, researchers, and industry experts to explore the latest developments and groundbreaking applications in the Cell and Gene Therapies field. Through a diverse program of scientific lectures and networking sessions, attendees will discuss the challenges and opportunities in advancing these therapies, from the research phase to clinical application.

Advanced Therapy Medicinal Products (ATMPs) – Cell Therapy – Gene Therapy

PROGRAM

● SCIENTIFIC TALKS

Listen to the latest developments at the plenary sessions given by leading experts

● EXHIBITION HALL

Learn about the most recent innovations to advance and accelerate the field of Cell & Gene Therapies

● BREAKTHROUGH INNOVATION SESSION

Discover the new innovations, projects and technologies during short presentations

● B2B MEETINGS

Meet and connect with new clients and generate new leads during B2B meetings

The **Bioproduction Forum** is a new meeting point for the bioproduction community, bringing together equipment suppliers, technology developers, and industrial stakeholders from across Europe. Through a combination of technology showcases, expert panels, workshops and case-based discussions, participants will gain insight into emerging solutions that are transforming industrial practices and compliance frameworks.

By connecting Pharma, CDMOs, biotech companies, and solution providers, the Forum fosters collaboration and knowledge exchange to accelerate the next generation of bioproduction technologies.

BIOPRODUCTION CONGRESS

11th Edition - Lyon, France

www.biopcongress.com

The **Bioproduction Congress (BIOPC)** is the annual event of the biopharmaceutical production sector where stakeholders from Europe gather to showcase and exchange on the latest innovations in bioprocessing. This dynamic event addresses the current challenges, promotes exchanges, and showcases the new breakthrough solutions for the future of biomanufacturing.

Biomanufacturing – Vaccines – Antibodies – ATMPs – CMC – Bioprocessing – Analytics – Quality Control – Regulatory – Sustainability – Digitalization

FESTIVAL OF BIOLOGICS

21th edition - Basel, Switzerland

www.terrapiinn.com/conference/festival-of-biologics

The Festival of Biologics is Europe's biggest event dedicated to Biologics. It is also the meeting place for the life science community, bridging academia and industry. With three events in one, the festival encourages exchanges across the sector to promote innovation and tackle the complex challenges facing the biologics industry.

Since 2017, MabDesign has organised a shared pavilion for companies of the biotherapy network, and since 2022, the **French Biotherapies Choose France Pavilion** has been eligible for the export relaunch voucher* for companies willing to take part.

IMMUNOTHERAPIES & INNOVATIONS FOR INFECTIOUS DISEASES

10th édition - Lyon

www.i4id.org

The [Immunotherapies & Innovations for Infectious Diseases \(I4ID\) Congress](#) is an annual international event that brings together pharmaceutical industries, research laboratories, service providers, technology developers and clinicians, to address the current challenges and opportunities on antimicrobial resistance (AMR), microbiota, immunotherapy, new vaccines, diagnostic tools and many other topics in the fight against infectious diseases. This two-days event allows to foster interactions and contribute to the development of innovative strategies against infectious diseases.

**Infectious Diseases – Vaccines – Antibiotics – Antimicrobials –
Immunotherapy – Microbiota – Diagnostic**
