

HIGHLIGHT

Who are you?

CER Groupe is a Research Center and an ISO/GLP/CIR-certified CRO, an innovation partner for the biopharmaceutical industry, offering for nearly 50 years flexible services in bioproduction, preclinical development, and bioanalysis.

What is your expertise?

CER complements its partners' expertise with a highly qualified multidisciplinary team of over 150 collaborators. We offer end-to-end preclinical solutions that combine scientific rigor with strategic thinking, serving as a vital link between discovery and clinical phases.

What are your key products or services?

- In vitro/in vivo studies (biobank / multi-species / up to GLP tox)
- Production of recombinant proteins, antibodies, and VHH-targeted AAVs
- Comprehensive analytical platform (HRMS, FACS, MSD, ELISPOT, BLI, ...)

Can you sum up your company in 3 words?

- Flexibility
- Quality
- Expertise
