

HIGHLIGHT

spegegant

Who are you?

Spegegant is a boutique consultancy specializing in **epidemiological** and **health-economic** analyses.

Our clients are scientists and decision-makers fighting against **infectious diseases**. We equip them with the clarity and depth they need to carry out their mission.

What is your **expertise?**

We have extensive experience in infectious disease **transmission modeling, health-economic modeling**, and epidemic prevention and control modeling.

We use mathematical modeling to demonstrate the **public health value** of products or interventions, or to support **strategic decision-making**.

What are your key products or services?

Our services cover epidemiological and health-economic **model development** "from scratch", **analysis** of existing models, **value assessment** of health products, development of **value arguments**, **competitive positioning** assessment.

Can you sum up your company in 3 words?

- Infectious diseases
- Epidemiology
- Health economics
