

Highlight

BIOTECHTM
VISIONARY SCIENCE

Who are you?

CTIBIOTECH™ is a biotechnology company specialized in the development of advanced human tissues for research, drug testing and precision medicine.

We provide innovative 3D in vitro solutions to support pharmaceutical, cosmetic and biomedical innovation.

What is your expertise?

We specialize in advanced human tissue engineering, developing 3D in vitro tissues that replicate human physiology and pathologies. Our expertise includes skin tissues, cancer tissues (microtumors), and biomimetic systems for drug testing, cosmetic evaluation and biomedical research.

What are your key products or services?

Our key products include CD34+ cells, offering high-quality stem cell sources. We also provide custom requests with a wide range of sample types tailored to your needs. Finally, we supply skin in all forms, fresh or frozen, ensuring flexibility for your research

Can you sum up your company in 3 words?

- Innovation
- Biotechnology
- Expertise
