SPONSORSHIP & EXHIBITION

ABOUT MABDESIGN

MabDesign, the French association of the Biotherapy Industry

MabDesign, the French biotherapy industrial association, aims to support, federate and increase the visibility of the biopharmaceutical industry, foster exchanges, promote the development and competitiveness of companies, and stimulate innovation by encouraging the emergence of start-ups from academic research.

Created in 2014, MabDesign's Board of Directors is composed of representatives from bioMérieux, DBV Technologies, Institut Pasteur, LFB Biomufacturing, Oxford Biomedica, Pierre Fabre, Sanofi, ThermoFisher Scientific, TreeFrog Therapeutics and 4 independent field experts : Hervé Broly (ex-Merck); Nicola Beltraminelli from Pierre Fabre; Maité Durrenbach from Sanofi and Stéphane Legastelois from 33 California.

Moreover, to achieve its goals MabDesign sets up a coherent set of actions promoting exchanges, collaborations and skills development. In this dynamic MabDesign has co-developed a **national directory** that brings together industrial and academic players in biotherapy and allows to identify online the know-how available in France. MabDesign organizes high-level **international scientific events**, in collaboration with key ecosystem players, to highlight innovation and stimulate exchanges between companies in the sector. With the help of its scientific committee (COSSF), MabDesign writes **summary reports** (ImmunoWatch & BioprocessWatch) for the biotherapy industry. MabDesign offers specialized and innovative **continuous professional training solutions** to enable companies to adapt their skills to the market evolution and maintain their competitiveness. Finally, MabDesign offers its members a **wide range of services** to help companies of all sizes to optimize their positioning, protect and enhance their innovations, conquer new markets and raise public funds.

Operational since September 2015, MabDesign currently has over **380 members companies** and its diversity is its strength. MabDesign's dynamic network includes pharmaceutical and biotech companies, service providers (eg. CROs, CDMOs, etc), professional training actors, high-tech equipment suppliers and specialized consultants.

The **Immunotherapies & Innovations for Infectious Diseases (I4ID) Congress** is an annual international event that brings together pharmaceutical industries, research laboratories, service providers, technology developers and clinicians, to address the current challenges and opportunities on antimicrobial resistance (AMR), microbiota, immunotherapy, new vaccines, diagnostic tools and many other topics in the fight against infectious diseases. This two-days event allows to foster interactions and contribute to the development of innovative strategies against infectious diseases.

**Infectious Diseases – Vaccines – Antibiotics – Antimicrobials –
Immunotherapy – Microbiota – Diagnostic**

2th edition - Lausanne, Switzerland

www.mabdesign.fr/en/our-international-events/

The **Bioproduction Forum** is a new meeting point for the bioproduction community, bringing together equipment suppliers, technology developers, and industrial stakeholders from across Europe. Through a combination of technology showcases, expert panels, workshops and case-based discussions, participants will gain insight into emerging solutions that are transforming industrial practices and compliance frameworks.

By connecting Pharma, CDMOs, biotech companies, and solution providers, the Forum fosters collaboration and knowledge exchange to accelerate the next generation of bioproduction technologies.

PROGRAM

● SCIENTIFIC TALKS

Listen to the latest developments at the plenary sessions given by leading experts

● EXHIBITION HALL

Learn about the most recent innovations to advance and accelerate the field of biomanufacturing and bioprocessing

● WORKSHOPS

Gain insights on the latest innovations and technologies during immersive sessions

● B2B MEETINGS

Meet and connect with new clients and generate new leads during B2B meetings

FESTIVAL OF BIOLOGICS

www.terrapinn.com/conference/festival-of-biologics

The Festival of Biologics is Europe's biggest event dedicated to Biologics. It is also the meeting place for the life science community, bridging academia and industry. With three events in one, the festival encourages exchanges across the sector to promote innovation and tackle the complex challenges facing the biologics industry.

Since 2017, MabDesign has organised a shared pavilion for companies of the biotherapy network, and since 2022, the **French Biotherapies Choose France Pavilion** has been eligible for the export relaunch voucher* for companies willing to take part.
